

## Microsoft Body of Knowledge 2025

### Practitioner level syllabus

#### Overview

The Microsoft Body of Knowledge 2025 Practitioner exam is aimed at individuals who want to show that they have a good knowledge across the licensing of Microsoft's desktop and server workloads with the emphasis on cloud solutions. The exam consists of 50 questions, including some based around a case study, and must be completed in 1 hour. Candidates with a passing score of 70% or above are awarded a digitally verifiable [Credly badge](#) demonstrating their ability to recall key licensing facts and apply their knowledge in real-world customer licensing scenarios.

This certification is especially useful in career development programs for sales, deployment, procurement, licensing specialist, and SAM professionals.
